SUMMARY

Computer Science undergraduate at the University of Pisa with full-stack delivery in TypeScript, React, Next.js, Node.js, and PostgreSQL, plus agentic workflows (Claude environment, Cursor, n8n). 2nd-place agentic-AI hackathon build (Next.js, 100+ test scenarios) and portfolio deployed on Vercel. Junior IT Associate at JEVIS on internal tooling, marketing lead platform, and client sites. Seeking a frontend or full-stack internship in the EU.

EDUCATION

University of Pisa — Pisa, Italy Sep 2024 – Jul 2027 (expected)
B.Sc. in Computer Science — Relevant coursework: Algorithms and Data Structures, OOP, Operating Systems, Databases, Networks, Software Engineering, Web Programming.

EXPERIENCE

JEVIS Junior Enterprise Pisa — Junior IT Associate Pisa, Italy, Apr 2026 – Present
Stack: TypeScript, React, FastAPI, PostgreSQL, Headless CMS, Docker, GitHub.

- Built an internal web platform for JEVIS Junior Enterprise (50+ members across 5 functional areas) to track project progress, staffing, and cross-area operations.
- Evolved an initial lead-scraping workflow into a marketing lead-management platform: React dashboard with analytics; area leads assign tasks, monitor pipelines, and coordinate associate workload on captured leads.
- Developing a public website for *Digital Technologies Engineering*, a new English-taught B.Sc. at the University of Pisa, using a headless CMS architecture, in collaboration with JEVIS client delivery.

PROJECTS

VShuttle — Next.js, React, TypeScript, Claude environment, Cursor, n8n 2nd place, Agentic-AI Hackathon 2026
github.com/Giorbertopazzosgravato/TeamNumero9-VShuttle

- Shipped a working 2nd-place system via a multi-step Agile workflow with Claude environment, Cursor, and n8n (team orchestration, project credentials/secrets setup, build-test iterations).
- Built a three-layer shuttle decision stack: weighted multi-sensor fusion, adaptive OCR, and human-in-the-loop below 60% confidence; Next.js 16 / React 19 dashboard with 2-second manual intervention and phantom-braking fallback.
- Connected Next.js API routes to the fusion layer (front camera, side camera, V2I); validated on 100+ test scenarios.

Personal Portfolio — FastAPI, React, Tailwind CSS, Node.js, PostgreSQL, Vercel 2025
fabiotognaa-personal-portfolio.vercel.app

- Designed and shipped a responsive portfolio (React, Tailwind, Node.js, Supabase) on Vercel with SEO (metadata, sitemap, structured data) and persisted contact form.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, HTML, CSS, PHP, Java, C, C++.
- **Frontend:** Claude Design, React, Next.js, Tailwind CSS.
- **Backend:** Node.js, FastAPI, REST API design.
- **Databases:** PostgreSQL, Supabase.
- **AI / Automation:** Claude environment, Cursor, n8n.
- **Tools / DevOps:** Git, GitHub, Docker, Vercel, Google Cloud Platform, Agile/Scrum.

LANGUAGES

Italian — Native | English — B1/B2 (Intermediate/Upper-Intermediate)

INTERESTS

Jazz (1950s–70s era) | Tennis | Art-card collecting (Tomodachi Press editions)
